# Cloud Vendor Analysis

Legend ● High ● Low ● Medium ● Total Costs

Vendors:

1. **Dataflow**
2. **Cloud Functions**
3. **AI Platform**
4. **Kubernetes Engine**
5. **Compute Engine**
6. **Cloud Run**

The six listed vendors arranged from the left indicate higher efficiency compared to the rest of the services.

Green Bars indicate higher utilisation, red and darker red shaded bars indicate lower utilisation). Green bars are desirable.

The shaded line-graph reflects the total cost respective to that vendor. The fact that vendors with high efficiency occupy less costs in terms of shaded area reflects missed opportunity.
